- Use of the service is subject to Accsoft Internet Service Acceptable Use Policy. (A copy can be found at www.onmyweb.net/policy/aup.htm.)
- A contract of 6 months applies, and is automatically renewed every 3 months afterwards unless a written notice of termination is provided at least 30 days before the current term expires.
- A contract month is the period between two consecutive monthly anniversary days.
- When the usage in any contract month has exceeded the monthly entitlement of the chosen Traffic Plan (GB/month) period (all day, am or pm), the connection speed during that period will be reduced to 64K/64K, until the end of the contract month.
- Unused traffic entitlement cannot be transferred to other periods (am or pm) or carried forward to following contract months.
- You may change to a new Traffic Plan (GB/month) during a contract month. If the change results in a higher plan fee, the billing of the new plan fee will start at the beginning of the contract month *retrospectively*. If the change results in a lower plan fee, the billing of the new plan fee will start at the beginning of the *following* contract month.
- 1 MB is defined as 1,000,000 bytes and 1 GB is defined as 1,000 MBs for the purpose of pricing and billing.
- Payment of the set up fee and the first 3 months of service fee are required to confirm the order.
- Payment in advance every 3 months. Invoice will be issued 14 days before the current term expires. If payment is not received 10 days before the expiry date, the service may be suspended without notice at Accsoft's sole discretion. The customer is liable for the invoiced payment even if the service is suspended.
- In case of faults, you need to contact our help desk and report a fault. You must not contact the carrier direct or a carrier-fee will apply. If a technician has been sent out to your premises and found that your internal wiring or equipment is at fault, an incorrect call-out fee will apply.

Using the Accsoft Broadband Services by yourself, your staff or any people having access to such services is an indication of your acceptance of the Terms and Conditions and the Acceptable Use Policy.
